

Stakeholders

Recognized

The people, groups, or organizations who affect or are affected by a software system.

Represented

- Healthy stakeholders represent groups or organizations affected by the software system

Involved

- Healthy stakeholder representatives carry out their agreed to responsibilities

In Agreement

- Healthy stakeholder representatives cooperate to reach agreement

Satisfied for Deployment

- Healthy stakeholders are satisfied with the use of the software system

Satisfied in Use

Opportunity

Identified

The set of circumstances that makes it appropriate to develop or change a software system.

Solution Needed

- A good opportunity is identified addressing the need for a software-based solution
- A good opportunity has established value
- A good opportunity has a software-based solution that can be produced quickly and cheaply
- A good opportunity creates a tangible benefit

Value Established

Viable

Addressed

Benefit Accrued

Requirements

Conceived

What the software system must do to address the opportunity and satisfy the stakeholders.

Bounded

- Good Requirements meets real needs

Coherent

- Good Requirements has clear scope

Acceptable

- Good Requirements are coherent and well organized

Addressed

- Good Requirements help drive development

Fulfilled

□ Software System

Architecture Selected

A system made up of software, hardware, and data that provides its primary value by the execution of the software.

Demonstrable

- Good Software System meets requirements
- Good Software System has appropriate architecture
- Good Software System is maintainable, extensible and testable
- Good Software System has low support cost

Useable

Ready

Operational

Retired

□ Team

Seeded

The group of people actively engaged in the development, maintenance, delivery and support of a specific software system.

Formed

Collaborating

Performing

Adjourned

- A healthy Team meets its team goals effectively
- A healthy Team has members that collaborates effectively
- A healthy Team focus on their work
- A healthy Team continually improves

□ Work

Initiated

Activity involving mental or physical effort done in order to achieve a result.

Prepared

- Healthy Work is sizeable, estimate-able and track-able
- Healthy Work breakdown reduces dependencies between work items
- Healthy Work management keeps risks, work and re-work under control

□ Way-of-Working

Principles Established

The tailored set of practices and tools used by a team to guide and support their work.

Foundation Established

- Good way of working is agreed by the team
- Good way of working reduces risks and technical debts
- Good way of working is effective and removes duplicate work and wastes
- Good way of working improves itself

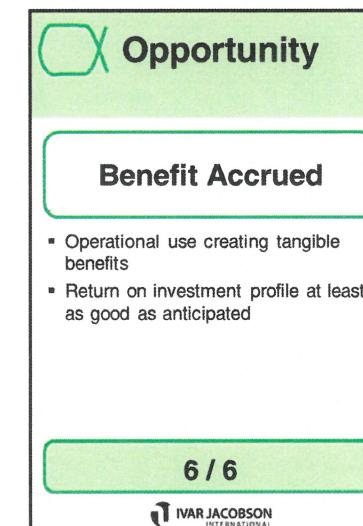

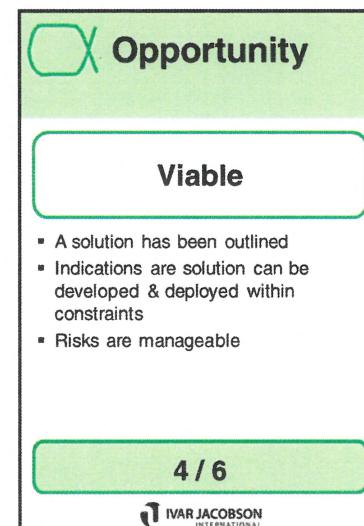

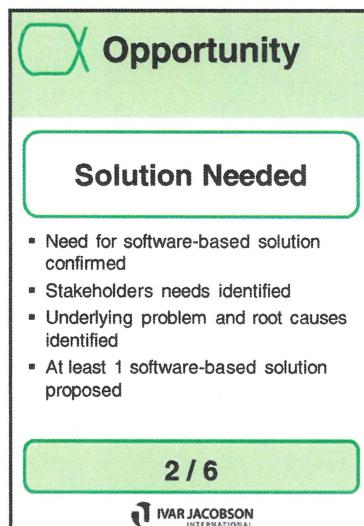

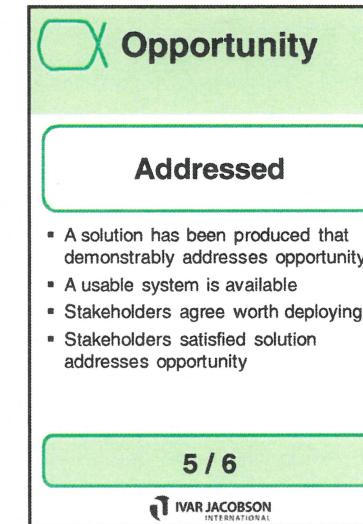

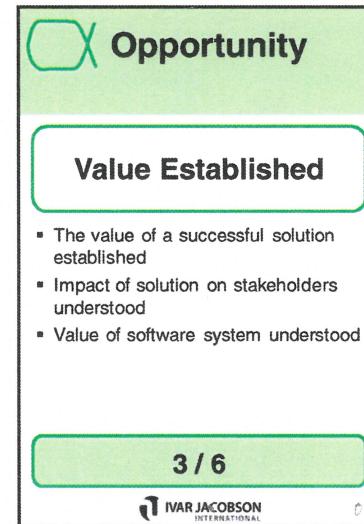

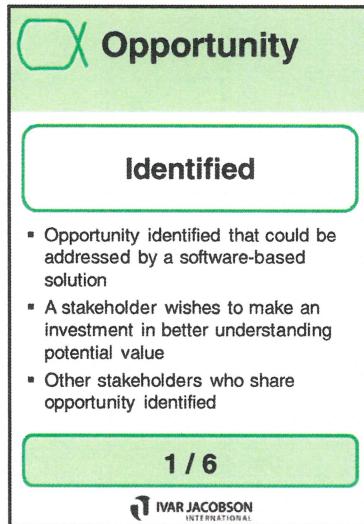

In Use

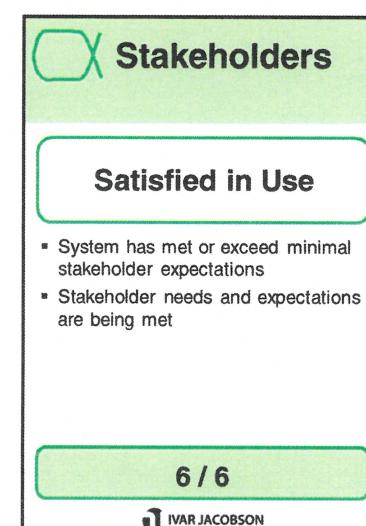

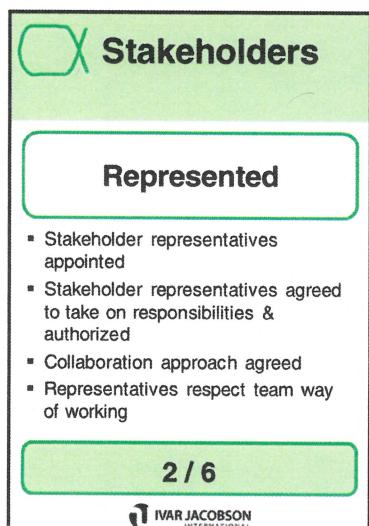

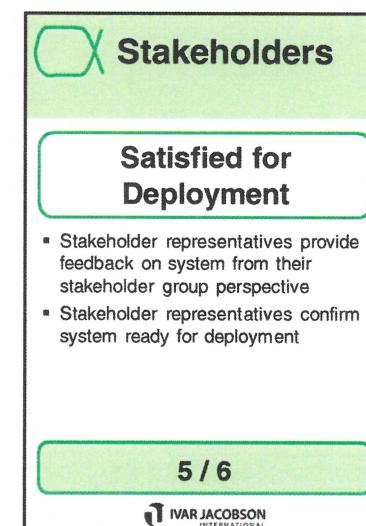

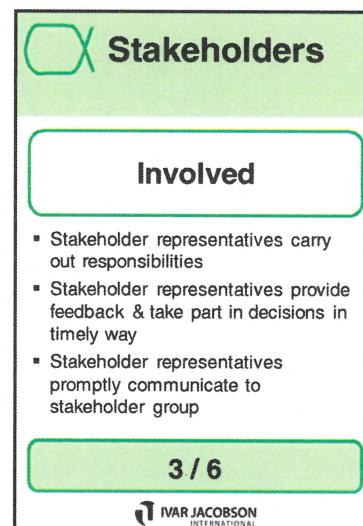

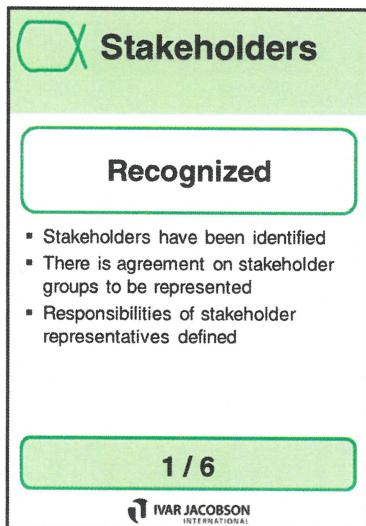

In Place

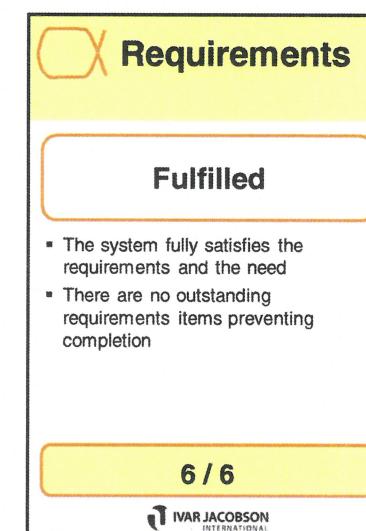

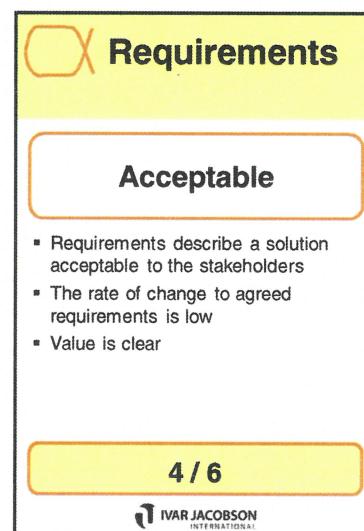

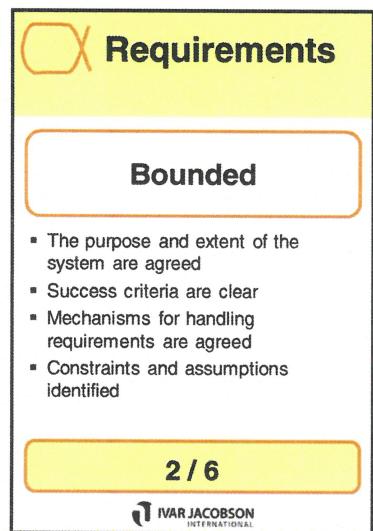

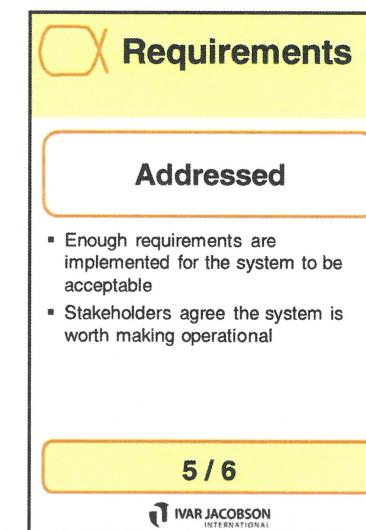

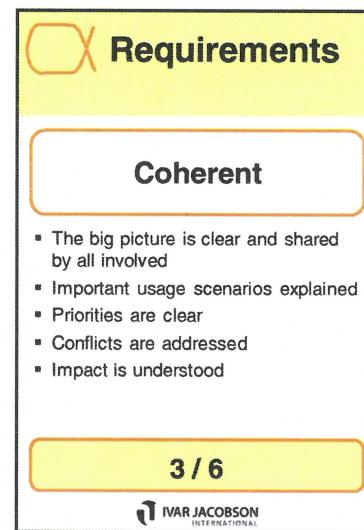

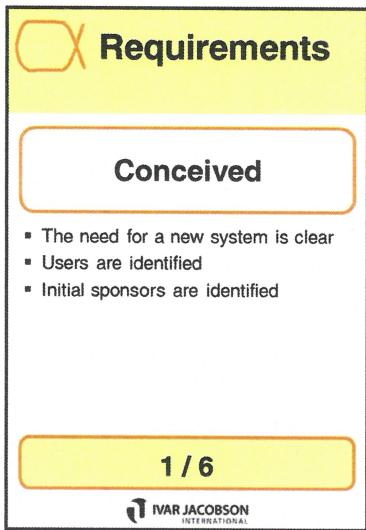

Working Well

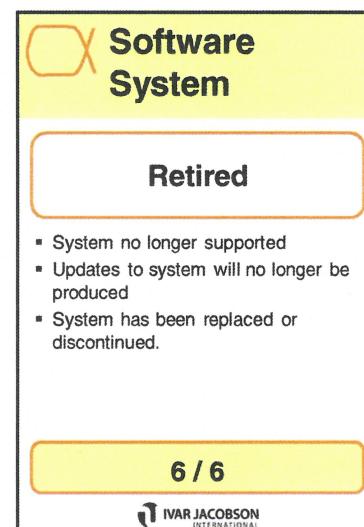

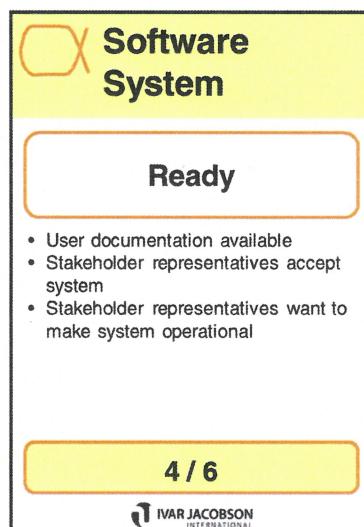

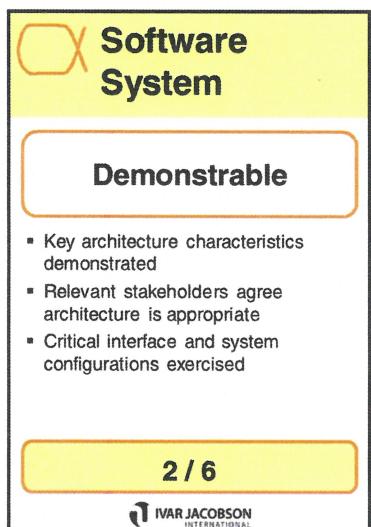

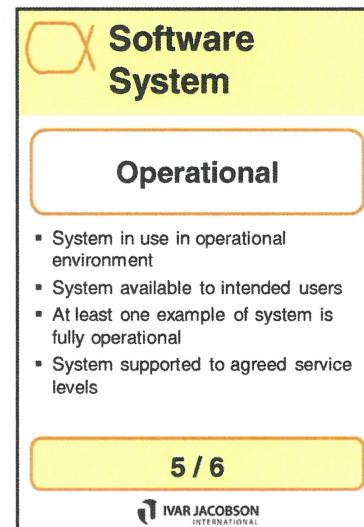

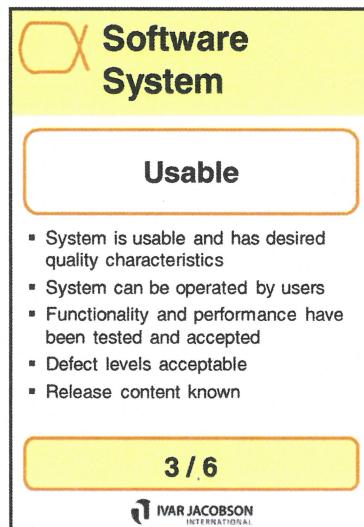

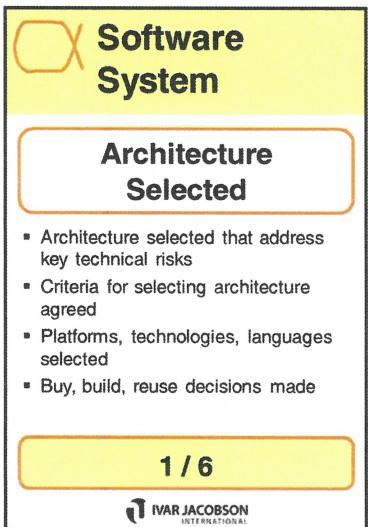

Retired

 Way of Working

Foundation Established

- Key practices and tools ready
- Gaps that exist between practices and tools analyzed and understood
- Capability gaps analyzed and understood
- Selected practices, and tools integrated

2 / 6

 Way of Working

In Place

- All members of the team are using the way of working
- All members have access to practices and tools to do their work
- Whole team involved in inspection and adaptation of way of working

4 / 6

 Way of Working

Retired

- Way of working no longer in use by team
- Lessons learned are shared for future use

6 / 6

 Way of Working

In Use

- Some members of the team are using the way of working
- Use of practices and tools regularly inspected
- Practices and tools being adapted and supported by team
- Procedures in place to handle feedback

3 / 6

 Way of Working

Working Well

- Way of working is working well for team
- Team members are making progress as planned
- Team naturally applies practices without thinking about them
- Tools naturally support way of working

5 / 6
